

Install P3D V4 / V5

1. Run as administrator the installer, it is important to choose the root directory path of your simulator.
2. Check the "CentralSim" folder inside the root folder of your simulator, activate the "Central_Sim_SKPQ_P3Dx" scenario from your scenario Library, SKPQ charts inside the "Charts" folder

Important: only for those who use the VIRTUALCOL product, they should delete the AFX_SKPQ file, which is found in the "Addon Scenery \ Scenery" folder
