QUICK-START for KLAX v2.5 …..

There are only 3 things you need to do to see the airport in action.
REQUIREMENTS:

1.Unzip the KLAX 2.5 folder and place into Custom Scenery.

2. Update/install the OpenSceneryX Library.
www.opensceneryx.com

3. Click on this link:
https://forums.x-plane.org/index.php?/files/file/17888-free-add-on-static-and-animated-aircraft-for-jeffmuellers-payware-kjfk-and-klax/
OR
https://www.x-plained.com/aircraft-static-and-animated-library

Click the "Download this file" button, and download the "Aircraft-Static_and_Animated" file. Unzip and place into your Custom Scenery folder.

Start X-Plane.

Happy Landings!
