Private Flights Cessna Citation CJ4

User Guide

Add-on for

Introduction

Private Flights - Cessna Citation CJ4 have been created to be used with exclusively with Microsoft Flight Simulator.

The archive you have downloaded contain the following files:

- **Private Flights - Cessna Citation CJ4 User Guide** * the document you are reading;
- **Community.zip** * the archive with Missions Pack and new livery for the default Airbus A320.

System requirements

Private Flights - Cessna Citation CJ4 does not requires any additional equipment. The product be used with the same requirements to run Microsoft Flight Simulator.

A running copy of Microsoft Flight Simulator installed on your Pc is required in order to use the product, as well!

However, here is a list of minimum requirements:

- Microsoft Windows 10 with last updates
- Microsoft Flight Simulator (Standard, De Luxe and Premium)
- CD-ROM drive (for boxed version)
- 200 MB of free disk space
- Adobe Acrobat Reader 6 or higher to read and print the manual (1)

(1) Available for free; download it at <http://www.adobe.com>

Installation

To install the product on your Personal Computer:

1) **Open the Community.zip** file and **extract** the content into your **Flight Simulator Community Folder**.

Note: You must choose the correct path manually, browsing the folder on your Pc.

That why the Microsoft Flight Simulator's "Community" folder is located in dependance of your own settings and Version installed.

The Path should be something like this below:

For the Windows Store install:

C:\Users\[Your User Name]\AppData\Local\Packages\
Microsoft.FlightSimulator_8wekyb3d8bbwe\LocalCache\Packages\Community

For the Steam install:

C:\Users\[Your User Name]\AppData\Local\Packages\
Microsoft.FlightDashboard_8wekyb3d8bbwe\LocalCache\Packages\Community

NOTE: Windows 10 by default hides the "AppData" folder, so before installing, you will have to go to "View" in the menu of File Explorer, and select show "Hidden items" so as to see it.

Be sure to install into the correct folder!

In this manner all files will be copied into the appropriate subfolder..

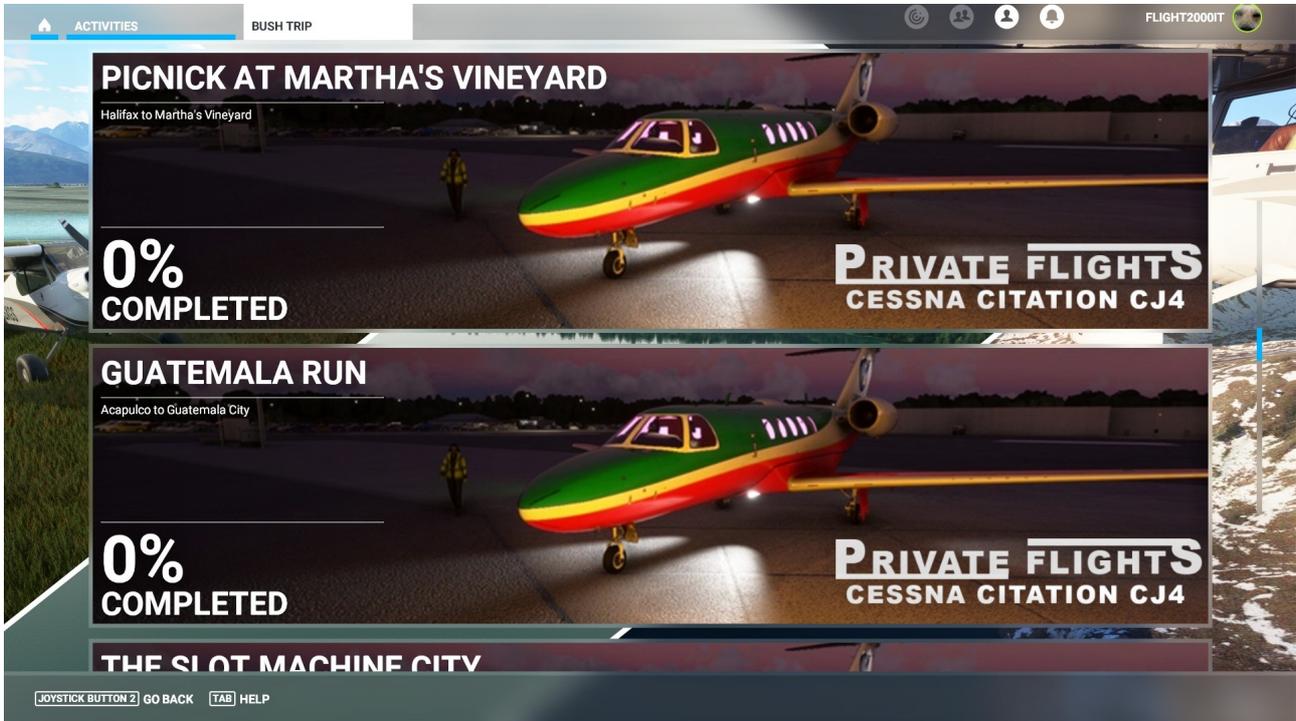

Support

To obtain technical support, go to <http://www.fs2000.org/product-support/> indicating:

- Order number
- Product Title
- Flight Simulator Version
- Problem in detail

Also, do not simply write 'The product does not work' but explain us clearly your problem, so we can help you better and faster.

Private Flights - Cessna Citation CJ4

Private Flights - Cessna Citation CJ4 lets you fly an IFR mission making up for the Microsoft Flight Simulator lack. Missions are available into the **ACTIVITIES/BUSH TRIP** but they work in conjunction with the ATC engine. So you can interact with the Traffic Control to simulate real life flight operations. So, test your knowledge and skills in this particular aspect of the flight.

You start each mission with the plane parked at the gate, cold & dark, so you have the complete control and responsibility of any aspect of the planned route.

In addition, the missions take advantage of the Microsoft TTS technology and you will receive instructions and information about the flight by voice.

NOTE: With the Microsoft World Update 5, when you receive the audio message from the Narrator the statement [**MISSING AUDIO**] appears. This is a well know Microsoft bug and it is not attributable to a defect of the product.

Private Flights - Cessna Citation CJ4

Product Feature:

- **Fleet** – new livery in Perfect Flight colors for the default Airbus Cessna Citation CJ4 in ultra high 8k resolution. You can use the provided plane or any already in your fleet.
- **Missions** – 10 IFR flights completely integrated with the ATC system, with Speed call, Stall and Overspeed monitoring and warnings, Gear, Flaps and altitude check and more. Fly for hours in a large range of scenarios and enjoy a most realistic flight experience in a real aeronautical world ambience.
- **Custom Settings** – You can fly the missions with preset settings or change weather, season, date and time. You have full access to Checklists and Assistance Options. Multiplayer feature is also enabled, so you can fly online with your friends.

Mission List:

- Picnick at Martha's Vineyard ([Halifax Intl](#) to [Martha's Vineyard](#))
- Guatemala Run ([Acapulco](#) to [La Aurora Intl](#))
- The Slot Machine City ([Santa Fe Mun](#) to [McCarran Intl](#))
- Gran Canaria Vacations ([Rabat Sale](#) to [Gran Canaria](#))
- Garda's Lake Windsurf Trophy ([Le Havre Octeville](#) to [Verona Villafranca](#))
- Welcome to Niagara Falls ([Norfolk Intl](#) to [St Catharines Niagara District](#))
- Short trip to Toluca ([Monterrey](#) to [Toluca](#))
- Weekend of relax at Sankt Moritz ([Budapest Ferihegy](#) to [St Moritz](#))
- Avalon Beach Paradise ([Williamtown](#) to [Avalon](#))
- The Vesuvio Vulcan ([Grenoble](#) to [Naples Capodichino](#))

Into The Cockpit

The mission begins with the plane parked cold and dark. Preliminarily, choose the desired flight options from the **MSFS Bar Menu**:

- We suggest you to choose **Live Weather** (set by default) for maximum realism.
- Set date and time of the flight.

To begin the mission execute the necessary flight controls and checklists, then when you are ready, contact Clearance or Ground (that depends by the Airport) to receive the IFR clearance.

The flightplan is preloaded in your FMC and you can display it in any time in the NAVLOG too.

Follow instructions received by the Controller to progress in your flight and observe how the mission interact with the ATC.

After landing at the destination Airport you will receive the COMPLETED message and the mission will end.

The Private Flight FLEET

Product also includes new livery for default Cessna Citation CJ4 in Perfect Flight colors, with interiors too.

How To Use Your Own Plane In Missions

Although Microsoft doesn't allow you to change planes during a Bush Trip mission, there is an easy way around this limitation

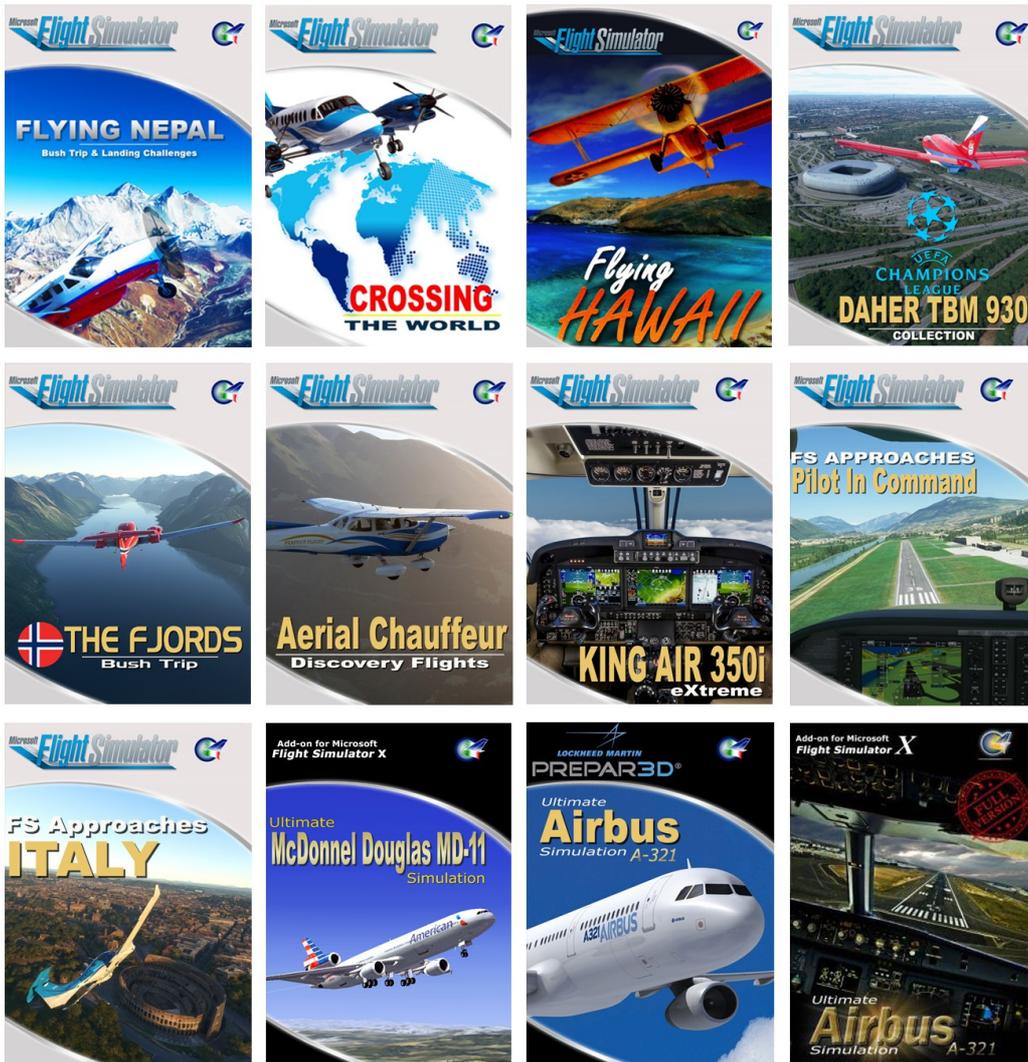

- 1) Go in **Option/General** menu
- 2) Activate **DEVELOPER MODE**
- 3) A new menu will appear in the upper window
- 4) Click on **Windows** menu item, then on **Aircraft Selector**

It's All!
