# USA Coast To Coast

## User Guide

Add-on for

### Introduction

USA Coast To Coast have been created to be used with exclusively with Microsoft Flight Simulator.

The archive you have downloaded contain the following files:

- **USA Coast To Coast User Guide** \* the document you are reading
- **Community.zp** \* the archive with Bush Trip missions and new liveries for the default Cessna C208 Grand Caravan EX

### System requirements

USA Coast To Coast does not requires any additional equipment. The product can be used with the same requirements to run Microsoft Flight Simulator.

A running copy of Microsoft Flight Simulator installed on your Pc is required in order to use the product, as well!

However, here is a list of minimum requirements:

- Microsoft Windows 10 with last updates
- Microsoft Flight Simulator (Standard, De Luxe and Premium)
- CD-ROM drive (for boxed version)
- 400 MB of free disk space
- Adobe Acrobat Reader 6 or higher to read and print the manual (1)

(1) Available for free; download it at <http://www.adobe.com>

## **Installation**

To install the product on your Personal Computer:

- 1) **Open the Community.zip** file and **extract** the content into your **Flight Simulator Community Folder**.

**Note:** You must choose the correct path manually, browsing the folder on your Pc.

That why the Microsoft Flight Simulator's "Community" folder is located in dependance of your own settings and Version installed.

The Path should be something like this below:

**For the Windows Store install:**

C:\Users\[Your User Name]\AppData\Local\Packages\  
Microsoft.FlightSimulator\_8wekyb3d8bbwe\LocalCache\Packages\Community

**For the Steam install:**

C:\Users\[Your User Name]\AppData\Local\Packages\  
Microsoft.FlightDashboard\_8wekyb3d8bbwe\LocalCache\Packages\Community

**NOTE:** Windows 10 by default hides the "AppData" folder, so before installing, you will have to go to "View" in the menu of File Explorer, and select show "Hidden items" so as to see it.

Be sure to install into the correct folder!

In this manner all files will be copied into the appropriate subfolder..

### The FLEET

Product also includes two new liveries for the default Cessna C208 Grand Caravan EX in Perfect Flight livery.

## **How To Use Your Own Plane In Missions**

Although Microsoft doesn't allow you to change planes during a Bush Trip mission, there is an easy way around this limitation

- 1) Go in **Option/General** menu
- 2) Activate **DEVELOPER MODE**
- 3) A new menu will appear in the upper window
- 4) Click on **Windows** menu item, then on **Aircraft Selector**
