2. Installation:

Scenarios: Open the installation program and follow the instructions to install the scenario data. The scenarios will appear under: "Drive/Standard Scenarios". Choose your route and select your desired scenario from the list.

3. Scenarios:

- **TaD - Cheaper Travel**

You are in charge of Train 2D38 from Orpington to London Victoria via Penge East. It's the first off peak train to London of the day so be aware that stations may be busy. Apart from that it should be a smooth run.

- **TaD - Thameslink Trouble**

You're in charge of Train 1G61 from Orpington to Bedford. London is currently suffering from the tail end of a storm from the Atlantic. You must battle through these conditions and keep your train on time, people are still relying on us to get them to work.

- **TaD - Heading Home**

Having started late from Victoria stepping up a train for the evening peak, do you have the skills and determination to get the train to Gillingham and go home on time?

- **TaD - Bottle Neck**

Emergency Engineering Work is taking place at Bromley, can you manage to weave your way through the stopping services on the slow lines and still arrive at your destination on time?

- **TaD - Food & Wine**

Drive the last train of Victoria to Gillingham. Do you have the skills to manage your drunken passengers and manage a faulty train at the same time?

- **TaD - Stopping Service**

Take charge of Train 2M36 from London Victoria to Orpington. Do you have what it takes to keep your train on time through this tight timetable?

- **TaD - On Diversion**

Take Train 5K62 out of the depot and form a stopping service into London. There are no reported delays, so what can go wrong?

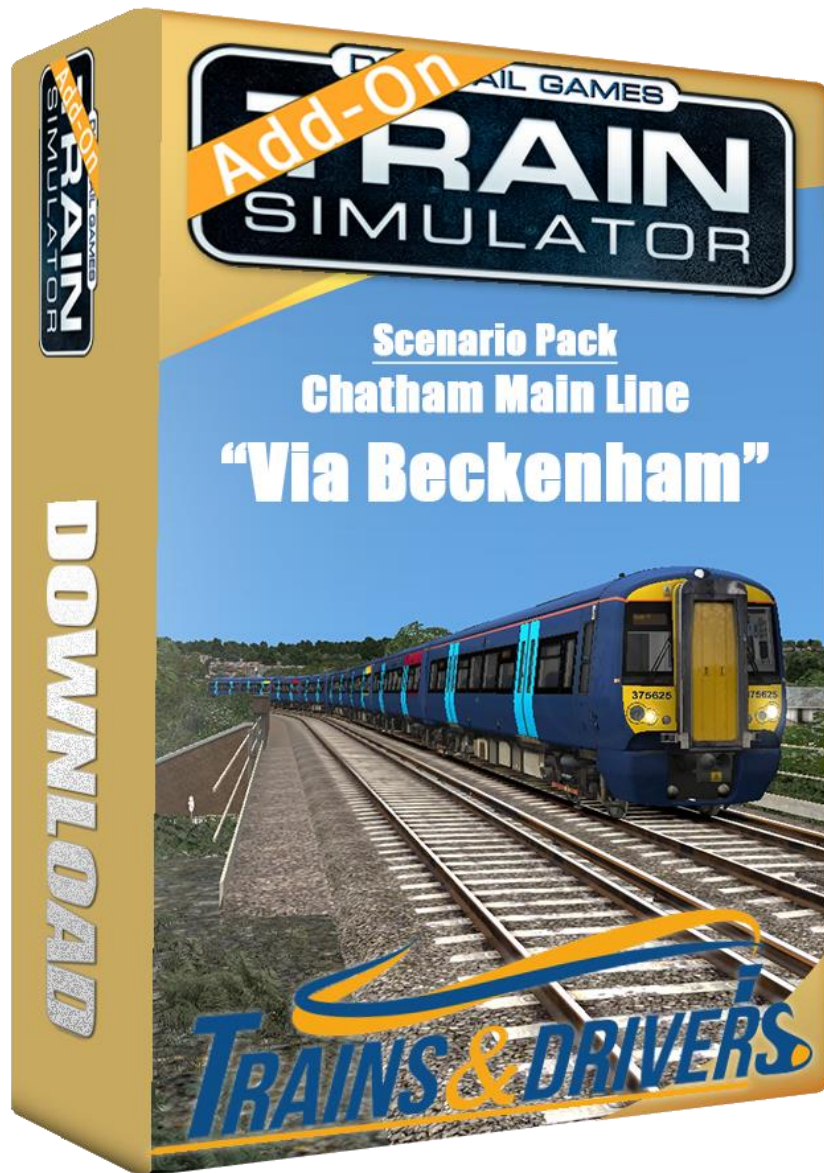

- **TaD - Weekend Work**

You're in charge of Train 1P32 from Rainham to Victoria. Engineering works at Faversham means that this train is starting at Rainham instead of Dover Priory today. It's a nice quiet Sunday morning and there are no reported problems.

4. Support

In the unlikely case that you have any problems with the installation or playing the scenario, please refer to the manual of the Versystem-Soundboard and Train Simulator's manual first. If the problem still exists, please contact our support team and give as many information about your problem. Please tell us WHAT you did, WHICH error occurred and WHAT you did to solve the error. If there are any pop-up messages, please let us know, too. If possible, send us a screenshot. This will help us to give you fast and easy support. Thank You!
