

1. System Requirements:

- Train Simulator
- Berlin – Wittenberg Strecken Add-On (available at Steam or Aerosoft)
- Bahnknoten Seddin Strecken Add-On (available at virtualTracks.net)
- Hamburg – Hannover Strecken Add-On (available at Steam or Aerosoft)
- FPS G6 Rangierlokomotive (available at virtual Railroads)

2. Installation:

- Please unpack your downloaded files with a program like WinZip, 7Zip or other. Open the installation program (TaD – FPG G6 Scenarios.exe) and follow the instructions. It is important to choose the correct installation path which is (depending on the folder your Steam Library is installed into): ..\Steam\SteamApps\common\RailWorks. Otherwise the installation will fail. Please consult the Steam Support site if you are not sure where your Train Simulator installation resides.

3. Playing the scenarios

- Start Train Simulator
- Choose “Drive” and select “Standard”.
- Now choose the route
- Start the scenario

4. Scenario Overview

- **FPS G6 - Morning shift at Veddel**

Hello driver! In this scenario you only have your work order to complete your tasks. No additional help will be given. Red signals may be passed by pressing TAB. Please check your workorder carefully. Good luck!

- **FPS G6 - Shunting at Maschen**

Today you will be shunting at Maschen Yard. You will only have your workorder to complete the job, no additional help will be given. Stay calm and read your work order carefully. Good luck!

- **FPS G6 - Nightshift**

It's the beginning of your nightshift at Seddin Railyard and you will collect your cars from different sidings.

- **FPS G6 - Nightshift Part II**

This is the second part of your nightshift. You will now take the consist you built earlier to Grossbeeren.

- **FPS G6 - Nightshift Part III**

In this part you are taking your engine back to Seddin. Your colleague has collected some other wagons here and your small consist is now ready for the return trip to Seddin.

- **FPS G6 - Nightshift Part IV**

This is the last part of your night shift at Seddin. You will place some wagons at Michendorf and return to the depot afterwards.

4. Support

In the unlikely case that you have any problems with the installation or playing the scenario, please refer to the manual of the scenario pack and to Train Simulator's manual first. If the problem still exists, please contact our support team and give as many information about your problem as you can. Please tell us WHAT you did, WHICH error occurred and WHAT you did to solve the error. If there are any pop-up messages, please let us know, too. If possible, send us a screenshot. This will help us to give you fast and easy support. Thank You!
