4. Scenarios

- **TaD Rheingold 1. Preparations (BR294, Munich - Augsburg)**

Your shift begins in Munich, where you will start the day by picking up the train at Laim and bringing the TEE Rheingold from Laim Yard to Munich main station.

- **TaD Rheingold 2. Departing Munich (BR103 TEE, Munich - Augsburg)**

The railtour starts and you will take the TEE Rheingold to its first stop at Augsburg.

- **TaD Rheingold 3. Via Karlsruhe to Mannheim (BR103 TEE, Karlsruhe - Mannheim)**

This part starts some kilometers before Karlsruhe, where you will change your direction of travel. After shunting your loco to the other end of the train, the trip continues northwards. You may take it easy on the way up north, there is no need to travel faster than 160km/h. You may speed up to 200 km/h, but expect a long wait shortly before Mannheim then.

- **TaD Rheingold 4. Arriving at Cologne (BR103, Cologne - Koblenz)**

In this final leg of the railtour, you are driving the train through the beautiful valley of the Rhine until you reach your final destination: Cologne.

5. Support

In the unlikely case that you have any problems with the installation or playing the scenario, please refer to the manual of the Versystem-Soundboard and Train Simulator's manual first. If the problem still exists, please contact our support team and give as many information about your problem. Please tell us WHAT you did, WHICH error occurred and WHAT you did to solve the error. If there are any pop-up messages, please let us know, too. If possible, send us a screenshot. This will help us to give you fast and easy support. Thank You!
