---

Scenarios: Open the installation program and follow the instructions to install the scenario data. The scenarios will appear under: "Drive/Standard Scenarios". Choose your route and select your desired scenario from the list.

---

### 3. Scenarios

---

#### **TaD - Diversion Express**

You're in charge of Train 1U47 but instead of running express you're running via Crystal Palace. Will you be vigilant enough to weave you through the cautions and dangers to arrive at Victoria in enough time to form your return?

#### **TaD - Rushing around in Circles**

It's morning rush hour in London, and everything going in and out of Victoria is using the slow lines. After a delayed departure, can you arrive into London Bridge within your PPM?

#### **TaD - Winter Wonderland**

It's coming up to Christmas and the snow is falling, causing havoc on the railway. Can you make up all of the lost time from your delays?

#### **TaD - Clapham and Back**

You're taking over the delayed 9N56 from Highbury & Islington to Clapham Junction here at Surrey Quays due to the driver having a SPAD incident at Canada Water. Please drive as quickly and as safely as you can to Clapham Junction, arriving in time to form the return as 9M60.

**TaD - First Train**

You're in charge of Train 5E05. You shall be coupling to a Southern 170 Unit at the North End of the yard before proceeding to London Bridge as Train 5E05. There's a lot to go wrong when shunting in a depot. Can you manage through the signals and paintworks?

**TaD - Commuting Home**

It's evening rush hour in London. Can you keep to your tight schedule while weaving around London?

**TaD - Into the City**

Take charge of Train 2P11 all stations into London. Do your best to remain on time with your tight schedule, commuters expect to be on time!

**TaD - Eye of the Storm**

Starting late due to a train fault, can you drive fast and safe enough to arrive into Victoria within your PPM?

---

*4. Support*

---

In the unlikely case that you have any problems with the installation or playing the scenario, please refer to the manual of the Versystem-Soundboard and Train Simulator's manual first. If the problem still exists, please contact our support team and give as many information about your problem. Please tell us WHAT you did, WHICH error occurred and WHAT you did to solve the error. If there are any pop-up messages, please let us know, too. If possible, send us a screenshot. This will help us to give you fast and easy support. Thank You!
