

## London Overground Scenario Pack for Train Simulator

### OVERVIEW:

This scenario pack consists of 6 scenarios. All scenarios are created accordingly to prototypical timetables and they bring the traffic on this busy main line to life, as it is today. Due to the limitations of a computer simulation, not every train and train consist will be simulated in this product. The scenarios contain automatic announcements onboard the trains enhance the immersion.

**NOTICE:** If you encounter red signals, do not pass them on your own by pressing TAB, you will be notified by the signaller. We also highly recommend disabling the option 'Scenario end on SPAD' in the gameplay menu.

Some services (AI trains) in this scenario pack that are London Underground services are represented as London Overground trains to keep the system requirements to a minimum.

### ABOUT TRAINS & DRIVERS

## SCENARIO OVERVIEW

### **[T&D LO] 01. 2N40 Richmond to Willesden Junction**

A nightly run from Richmond to Willesden Junction.

### **[T&D LO] 02. 2Y71 Willesden Junction to Clapham Junction**

This is a short drive with London Overground Service 2Y71, starting at Willesden Junction and ending at Clapham Junction.

### **[T&D LO] 03. 2J32 Barking to Gospel Oak**

Today you are taking London Overground Service 2J32 from Barking to Gospel Oak, using the GOBLIN Line.

### **[T&D LO] 04. 2J41 Gospel Oak to Barking**

In this scenario you are taking London Overground Service 2J41 from Gospel Oak to Barking. As always, the timetable is very tight, so be vigilant.

### **[T&D LO] 05. 2L68 Clapham Junction to Stratford**

Your shift starts on a weekday just before 8 o'clock. You drive London Overground Service 2L68 from Clapham Junction to Stratford. Since there are no delays so far, you should have a clear road.

### **[T&D LO] 06. 2N29 Stratford to Richmond**

Drive London Overground Service 2N29 from Stratford to Richmond. The tight timetable will keep you busy.

## CREDITS:

We would like to thank all our customers, who put their trust into Trains & Drivers. Special thanks to Dirk Willens-Hagenkötter and our Beta testers.
